

# Centre Nears First Birthday

---

The Centre theater will celebrate its first birthday Friday, December 23, and in honor of its opening manager Charles M. Pincus has arranged a gala birthday program, topped by the new Jack Benny picture, "Artists and Models Abroad."

The Centre, in spite of its single year of operation, has a special historic significance, for it was upon the ground on which it is built that the first plowing was done by the Utah pioneers. A bronze plaque, dedicated to them by the Daughters of the American Revolution, now hangs in the lobby.

"The Best in Motion Picture Entertainment" was the mark aimed at by the Centre theater when it first opened. A glance over some of the outstanding pictures shown there during the past year will serve to illustrate that desire. Among them were "Wells Fargo," "Suez," "Men With Wings," "Submarine Patrol," "The Hurricane," "Robin Hood," "The Texans," "Alexander's Ragtime Band" and "Boy's Town."

A continued program of big pictures is promised for 1939 by Manager Pincus.
